Stephen McCarthy, AI Bot Team

Chief of Staff is the front door: it takes in requests and routes work to the specialist bots below.

LEADERSHIP & COORDINATION

- **Chief of Staff**: The main assistant and point of contact. Sorts incoming requests and open loops, handles business coordination, and hands specialist work to the right bot.
- **dr eggbot**: Designs and builds new focused bots after asking a few preference questions.
- **Routinizer**: Finds repetitive scheduled work the bots do and turns it into lightweight automated background routines.

GROWTH & CONTENT

- **Content Director**: Turns Stephen's operating experience and ideas into practical LinkedIn content on how AI changes the economics of running businesses.
- **Director**: Plans videos aimed at winning search visibility for approved keywords on Stephen's websites.
- **HeyGen Video**: Produces avatar-style videos in Stephen's voice and brand.
- **Idea Scout**: Each weekday, researches one topic on X and the web and brings back a few usable content ideas plus timely news hooks.
- **Instagram ES**: Drafts, schedules and posts content for Stephen's Spanish-language Instagram account to attract local advisory clients.
- **Meta Pages**: Creates and configures Facebook business Pages for campaign brands so they match the brand voice and service list.
- **PR Desk**: Finds press opportunities and drafts pitches to get Stephen quoted in media read by senior marketing and growth leaders.
- **Video Director**: Turns briefs into short films, ads, explainers and other videos, from planning through delivery.

SALES & OUTREACH

- **Call Follow-Ups**: Turns recorded calls into follow-up emails, next-step notes and CRM updates for approval.
- **Cernia**: The single source of truth on Cernia, Stephen's marketing intelligence product, answering questions for Stephen and other bots.
- **Cernia Launch**: Drafts launch materials, checklists and decisions for the Cernia.ai product launch.
- **LinkedIn Outreach**: Drafts relationship-first LinkedIn messages to Stephen's connections, keeping job-search and Cernia conversations separate.
- **Reddit Outbound**: Drafts helpful Reddit replies for Stephen to review and post himself.
- **Sell Bot**: Supports the full customer journey, from outreach and call prep to proposals, onboarding, support and expansion, with every message approved first.

WEBSITES & SEO

- **GHL Publisher**: Builds and publishes approved website pages on the GoHighLevel platform.
- **Linker**: Finds relevant websites and drafts outreach to earn backlinks for new pages.
- **Scout**: Researches keywords and AI-search answers to find content opportunities for Stephen's websites.
- **SEO Site**: Protects and improves the website pages most likely to convert, and decides when a new page is worth creating.
- **Site Doctor**: Runs a weekly health check on Stephen's websites covering speed, mobile and technical issues.
- **Writer**: Writes blog posts from approved briefs and self-checks them before review.

RESEARCH

- **Research & Intelligence**: Researches questions in depth and returns evidence-backed conclusions and recommendations.
- **Stalk Bot**: Monitors competitors' sites, pricing, product changes and announcements, and suggests positioning responses.

OPERATIONS & FINANCE

- **Accounting**: Handles routine bookkeeping administration: draft bills and invoices, payment tracking, transaction categorization and reconciliations for human approval.
- **Colombia Tax**: Acts as a Colombian tax guide, clarifying filing obligations, deadlines and legal ways to reduce tax.
- **Fine Print**: Reviews contracts, leases, bills and terms of service, flags hidden fees and risks, and drafts dispute letters.
- **Haggle Bot**: Reviews software subscription spend, finds savings, and drafts vendor negotiation counters for approval.
- **Settlement Hunter**: Finds open class action settlements that may apply and prepares claims for approval.
- **Tax Prep**: Assembles supporting records for a specific tax documentation task.

PERSONAL & HOUSEHOLD

- **Art Dealer**: Helps value and sell art and antiques from the home.
- **Family**: Handles family email triage, school mail and calendar drafts.
- **Fitness Coach**: Builds a personal training and nutrition plan, coaches sessions and adjusts from check-ins.
- **Flora · Plant care**: Keeps a houseplant care journal and sends weekly care reminders.
- **Handyman**: Coaches home repairs with diagnoses, next steps and drafts for contractors.
- **Nest**: Organizes a household preparation board with priorities, gaps and shopping decisions.
- **Permit**: Tracks an immigration paperwork case.
- **Resale**: Sells household items on Facebook Marketplace, from listings to buyer replies.
- **Spam-Call Scrubber**: Removes Stephen's phone number from people-search and data-broker sites and re-checks over time.

OTHER/UTILITY

- **Import Bot**: Brings setups from other AI tools into Grok Bot and creates or updates bots to cover them.
- **Memory Transfer**: Moves what other AI assistants know about Stephen into Grok Bot, one reviewed item at a time.
- **Slack**: Slack-related assistant; no description on file.
